Hampton's Vegetable Tincture! THE GREAT DISCOVERY OF THE AGE!

READ! READ! READ!

Joy to the World !- Hope for the Afflicted !- More Testimony from Home!

Testimony from Home!

BAUTIMORE, Sept. 11, 1851.

Mesers. Mortimer & Mowbray: I feel it a duty to make known the benefits I have derived from Dr. Hampton's Tincture. For a length of time I have been subject to great prostration of muscular power, and great debility of the nervous system, accompanied with palpitation and fluttering of the heart. I had such sudden attacks that on one occasion I could scarcely get home. I making mention of my case to a friend, he referred me to Joseph R. Stapleton, esq., an old and highly respectable citizen of Baltimore, who had used the Tincture under similar circumstances. I called on Mr. Stapleton, and, after an interview of some minutes, I was fully satisfied of the medical virtues of the Tincture, from the evidence before me, of his own person, who, for some time previous, indicated a failing state of health, but now a hearty, hale appearance, with the activity of youth. I immediately commenced using the Tincture, and, before I took the contents of one bottle, my strength was renewed, and I can walk as brisk and am as active as I was turney years ago. This Tincture is the grand restorative of the digestive organs, which when destroyed, the whole system is in a state of suffering.

I do assert it is no humbug, but is, in reality, what it is represented to be by Dr. Hampton, the inventor.

Wonderful Cure of Hereditary Scrofula by Hampton's Vegetable Tincture! this certificate is from the pen of a gentleman whose name appears on the journal of Congress, one who is exten-sively and favorably known:

sively and favorably known:

"It affords me pleasure to state that Dr. Jesse Hampton's Tincture has effected a most extraordinary cure of my slave boy, Albert. The patient was three years old, and had the Scrofula—(his father was scrofulous.) The boy was a moving mass of sores from head to foot; the upper lids of the eyes were much swollen, and turned inside out, exhibiting horrible mattering uleers that protruded over the eye-balls so as to produce blindness. It is strange, yet true, this child, that I felt resigned to see die as a relief from suffering, has been restored to health under the treatment of Dr. Hampton.

"W. P. THOMASSON." " Louisville, March 20, 1851."

REV. VERNON ESKRIDGE, U. S. N. Greater weight of Testimony cannot be given.

PORTSMOUTH, VA., Aug. 18, 1851.

Mr. J. B. Boush—Dear sir: While I am, in general, opposed to patent medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For saveral months, and have great confidence in the virtues of Hampton's vegetable Tincture. For several months past I have used it in my family: and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, I am, respectfully, yours, Chaplain United States Navy.

Still another Witness for "Hampton's Vegetable

Tincture!" This certificate is from one of our largest and most enter-prising farmers—the owner of those splendid oxen exhibited at the late Agricultural Fair, and who, in person, did the ploughing, with the same, that took the premium. We mention this, as, before Mr. Horne took the Tincture, his condition was such as to despair of even visiting the Fair, much less taking such a laborious part as he did, to the astonishment of those who had seen his state a short time heavier. BALTIMORE, Feb. 4, 1852.

Messrs. Mortimer & Mowbray—GENTS: Having been afficted with Chronic Inflammatory Rheumatism for some time, in its worst form, I tried every remedy that came within my reach, without any success; in fact, my sufferings increased with every new remedy I tried, until I was scarcely able to walk, from the dreadful pains and swelling in my limbs. I had also an ulcer formed on my right wrist, which gave me intense vain. in my limbs. I had also an uncer localed my limbs. I had also an uncer localed my which gave me intense pain.

When in this condition, Mr. Scott, Conductor on the SusWhen in this condition, with several others, called my attention.

When in this condition, Mr. Scott, Conductor on the Sus-quehanna Ralirosd, with several others, called my attention to the many wonderful cures made by Hampton's Vegetable fincture, I determined to give it a trial, as a last resort. You well remember my sufferings at the time I got the Tincture from you—they were almost past endurance. I am happy now to inform you that, in a short time after taking it, I was relieved from pain, and could walk without difficulty, and in about four weeks I was enabled to take part in the ploughing match at our late Agricultural Fair. The ulcer on my wrist is now entirely cured, and I am in the enjoyment of the very best health, with no symptoms of my old disease; all of which I feel bound to say I owe to eat healing and restorative qualities of Hampton's Vege-

the great healing and restorative qualities of Hampton's veges the Tincture.

My great confidence in it has induced me to recommend it to others, and I have also seen its good effects in a number of cases. My little daughter had been in bad health for some time: no medicine seemed to reach her case, or to do her any good, until I gave her this Tincture of Hampton's veges are small, and afford him an opportunity to sell on moderate terms to his customers.

He has just received a fine assortment of spring goods, which will be made up in the best manner—consisting of Cloths, fancy Cassineres, and Vestings of Silk, white Maradille, and the second of the control too's, which soon restored her to robust health. I do therefore cheerfully bear my testimony in favor of this valuable medicine, and I wish you to send me a dozen bottles, that I may always have it at hand. Yours, respectfully,
ELISBA P. HORNE,

Monckton Mills, Baltimore county

Stronger-Still Stronger Stronger—Still Stronger!

Can any unprejudiced mind in the world ask stronger testimony or more convincing proof of the great restorative and curative powers of Hampton's Vegetable Tincture than given below! The writer is one of our most highly esteemed citizens, a man of integrity, and, it is extensively known, has been for a long time suffering under disease; his altered appearance new is a subject of remark, and gives additional teatimony and weight to the certificate below. He is also the son of the old Doctor Dunau, whose great skill as a physician is well known to most of the oldest inhabitants of this city:

sician is well known to most of the oldest inhabitants of this city:

Mestrz. Mortimer & Mowbray—Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Some time during last November I was taken with a very bad and serious cough. I was advised to take Cod Liver Oil, and did so, but, getting no better, I was induced to try your Tincture. I got one bottle, and, before I had used it, all my cough left me. Permit me also to state, that for the last fifteen years I have suffered very much from Acute Rheumatism and Vertigo, confining me, at times, to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me yours, very respectfully,

G. DUNAN.

N. B.—I can be seen any time at the Mayor's office. G. D.

THE subscriber offers for sale his Farm, situated About five miles from Washington, D. C., in Prince George's county, Md. It contains 1784 acres, more than 30 of which is a fine alluvial meadow, producing a ton and a half of hay to the acre, but which under improved cultivation would produce at least two Hay sells in the Washington market at from \$14 to \$20 per ton. About four acres of the place is a marsh, covered with several feet in thickness of black earth, the result of decayed vegetation, which, properly composted, is a source from which the upland may be enriched at a reasonable cost. About 60 acres of the farm is woodland—growth principally oak and chestnut. The land, except the meadow, is undulating, and affords many beautiful sites for building. There are many springs of excellent water on the place, and it is noted for its healthfulness. The soil of the greater part of the upland is a sandy loam, underlaid by clay—in some places, clay predomina-ting. About 75 acres could be divided into small gardening farms, giving nearly an equal quantity of v and arable land to each. There is an orchard of 15 peach trees and 60 apple trees on the place, all bearing: also, about two hundred apple trees, ready for grafting. It is well fenced. The buildings are—a log house of four rooms, with a frame addition of three rooms, a meat-house of sun-dried brick, a log kitchen separate from the dwelling, a corn-house, stable, carriage-house, &c. There is a stream of water running through the place, with sufficient water and fall for a small mill. Price, \$40 per acre. Terms—one-third cash: a long credit for the residue, if desired; or, it would be exchanged for real estate in the city of Washington.

CONSUMPTION.

TO CURE A COLD, WITH HEADACHE AND SORENESS OF THE BODY, take the GLERRY PECTORAL on going to bed, and wrap up warm, to sweat during the night.

FOR A COLD AND COUGH, take it morning, noon, and evening, according to directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find, by taking the Cherry Pectoral on going to bed, they may be sure of sound, unbroken sleep, and consequently refreshing rest. Great relief from suffering, and an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effect in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.

Clerks in the Departments, &c. The President of the Senate, on Monday, laid before that body the following communication from the several departments, made in compliance with a resolution of the Senate of the 7th of March, 1851, calling on the several heads of departments to report some plan of classifying the elerks in the several departments, apportioning heir salaries according to their services, and for qualizing the salaries of the clerks of the same grade in the different departments; which was eferred to the Committee on Finance, and

rdered to be printed. The document is signed by all the Secretaries, except the Secretary of State, and reads as fol-

WASHINGTON, May 1, 1852. SIR: The undersigned, in compliance with a resolution of the Senate of the 7th of March, 1851, directing the Secretaries of State, of the Treasury, of the Interior, of War, of the Navy, and the Postmaster General to report to the Senate some plan of classifying the clerks in the several Departments; for apportioning their salaries according to their services, and for equalizing the salaries of the clerks of the same grade in each of the Departments; also, some plan to provide for fair and impartial examination of the qual fications of clerks, and for promoting them from one grade to another, upon due regard to qualifications and services," respectfully present the fol-lowing separate reports touching the clerkships in their respective departments, with suggestions for effecting the objects supposed to be contem-

plated in the Senate's resolution. The importance of securing, more uniformly, a high grade of qualifications, and a more per-manent tenure to the clerkships in the several departments must be universally conceded; but desirable as the undersigned regard these objects, they have found it difficult to devise any plan for their attainment by legislation, without at the same time imposing re-traints and limitations upon the discretionary power of ap-pointment now vested in the heads of departr ments in accordance with the provisions of the constitution. If it be conceded that Congress may subject the power of appointment to such restrictions as they may deem expedient, it may yet be doubted whether to do so might not impair rather than promote the efficiency of the clerical force of the several departments, and, by increasing the existing evils, operate to the detriment of the public service. Leaving to the wisdom of the legislature to determine how far this power is by the constitution left subject to restraints or conditions, they suggest, as the most appropriate means which they have been able to devise for bringing into practical effect the reformations proposed, that in case of a vacancy in any office of clerk, except that of chief clerk, a board shall be constituted by the head of the department in which the vacancy shall have occurred, to examine any candidates to fill the same, who may be sent before it by the head of the department, as well as to their condition of health and physical energy, as to their education, skill and other qualifications for the duties of the place in question; and that no person shall be considered eligible to such appointment who shall not produce to the head department, to be filed in the archives, a certifi-

cate of approval from such board of examination. That every vacancy, except in the chief clerk-ship, or in a clerkship of the lowest class, shall be filled from the next inferior class in the same department or bureau by the individual who shall receive from a board constituted for his examination, in the same manner as prescribed in the foregoing paragraph, a certificate that he is fully

But if no person in such inferior class receive such certificate, then such other person may be appointed as shall, by the direction of the head of the department, be sent before such board of examination, and receive therefrom the requisite ertificate of qualification.

That when such other person shall be so appointed, without the previous presentment for examination of all the clerks of the class next inferior to that in which the vacancy is to be filled, the head of the department in which such appointment is made, shall cause to be entered ully on its records the reasons for such procedure. While several of the undersigned entertain doubts in regard to the practicability or utility of the foregoing plan of preliminary examination

and of promotion by regular gradation, they

have, with some besitation, concluded to unite in reporting it as worthy of trial, and more likely accomplish the desired object than any other upon which all can agree.
In regard to the classification of clerks, too, a ight difference of opinion exists among the undersigned, as will be seen by an examination of their several reports annexed. Most of them, however, are of opinion that though the number and proportion of clerks in each of the proposed classes required in the several departments and and offices will be widely different, yet that all the clerks employed at the seat of governmentas well by the two Houses of Congress as in the everal executive departments-may be usefully

classified according to service and c pacity, with niform salaries to all clerks of the same grade The classification and arrangement of clerks submitted in the accompanying schedules for several of the executive departments, and the bureaus and desks thereof, are in accordance with the Individual views of the head of that government for whice the schedule is unde.

The undersigned, however, unite to recom-mending that such emssification and arrangement e established by law as shall be found most early to fulfil these several recommendations, and that uniform salches ie established for all the clerks of each class, in whatever department of the government they may be employed, at the city of Washington.

The Secretary of the Treasury, in his classifiotion, suggests that the salary of the assistant cretary by \$4,500 per annum; a ch et c erk, \$2,500; two clerks of \$3,000; two of \$1,800; four of \$1,600; six of \$1,400; six of \$1,200. To all the offices, Comptrollers, Auditors, &c., each chief clerk to rece ve \$2,000. In the Third Auditor's office there are ten clerks put down at \$1,800, eleven at \$1,600, and sixteen at \$1,400.
